

## 4-head rolling burner V4/45

Art.-Nr. 0131 0000 + 0132 0000

**For holohedral heat-sealing of bituminous roofing material.**

- The whole width of the roofing material is melted simultaneously
- The burner can be tipped over via the big pulleys, so that the heat-seal position is changeable
- Head diameter of all designs 45 mm

### Technical data:

|                   |                  |
|-------------------|------------------|
| Max. heat output: | 177,8 kW         |
| Heads:            | 4 x 45 mm        |
| Total Length:     | approx. 1.200 mm |
| Width:            | 580 mm           |
| Weight:           | approx. 4,2 kg   |

| Burner                                    | Part No.  |
|-------------------------------------------|-----------|
| V 4/45 4-heads 177,8 kW (150.000 kcal./h) | 0131 0000 |
| V 4/45 4-heads 177,8 kW (150.000 kcal./h) | 0132 0000 |

### Accessories:

| Product                                                                                                      | Part No.  | Figure |
|--------------------------------------------------------------------------------------------------------------|-----------|--------|
| 5 m High-pressure hose 6,3 x 5<br>incl. medium pressure regulator 4 bar<br>and integrated hose failure valve | 1507 0000 |        |

10 m High-pressure hose 6,3 x 5  
incl. medium pressure regulator 4 bar 1508 0000  
and integrated hose failure valve
