

Silicone pressure roller

Product	Description	Part No.	Figure
Silicone pressure double roller 90 mm	Silicone roll, ballbearings, riveted axis, ergonomical wooden handle for maximum pressure, bracketed on both sides, for overlap welding.	1589 0000	
Silicone Pressure roller 45 mm	Silicone roll, two smooth running ball bearings, screwed axis, ergonomical wooden handle for maximum pressure, bracketed on one side, for overlap welding.	1590 0000	
Silicone Pressure roller 28 mm	Silicone roll, two smooth running ball bearings, screwed axis, ergonomical wooden handle for maximum pressure, bracketed on one side, for overlap welding.	1589 0100	
Silicone Pressure roller 45 mm – 45°	Silicone roll, two smooth running ball bearings, screwed axis, ergonomical wooden handle for maximum pressure, bracketed on one side, for overlap welding.	1590 0100	

Brass Pressure Roller

Especially small and convex
brass roll, smooth running ball
bearings,
ergonomical wooden handle for
maximum pressure.

1590 0200

Weld Seam Tester

Weld seam tester with wooden
handle, 90° angled.

1590 0300
