

DBW 1100 Speedy roofing membrane transport trolley

Art.-Nr. 0319 0100

The transport solution for roofing membrane. Thanks to its specialised spring mechanism, the transport trolley enables the easy and fast transportation of roofing membrane. Work is easy on the back, even for taller people due to the three-level height adjustment. Its wide rollers ensure good distribution of weight and the galvanised surface protects the trolley from corrosion. The compact and light design enables easy transportation.
