

GREEN LH wall

- Ladder lock made of stainless steel to fix a leaning ladder.
- Secures a ladder against tipping sideways and backwards.
- Permanent installation on the wall or facade

IMPORTANT NOTES:

- The assembly and use of the ladder protection are only permitted after the fitter / user has read the installation and use instructions in the respective national language.
- Health restrictions (e.g. taking medication, alcohol abuse, cardiovascular problems) can negatively affect the user's safety when working at height.
- If there are any doubts about safe use (e.g. if there is damage such as cracks or breaks), the ladder holder must be withdrawn from use.
