

Propane silent burner LSt 105

Art.-Nr. 0137 0000

GRÜN propane silent burners reduce the noise nearly by half at full capacity and decrease the danger for your hearing at approx. 80%.

- powerful
- silent
- lightweight

Technical data:

Max. heat output:	105 kW
Total Length:	approx. 800 mm
Weight:	0,80 kg

Continuous sound level:

at 3 bar	105 kW 84,0 dB (A)
at 2 bar	85 kW 81,2 dB (A)
at 1,5 bar	73 kW 79,8 dB (A)

Also in the following sets available:

Name	Part No.	Figure
Propane silent burner LSt 105 with adjustable regulator 05 – 4 bar with hose-failure-protection incl. 5 m high pressure hose	0137 0500	
Propane silent burner LSt 105 with adjustable regulator 05 – 4 bar with hose-failure-protection incl. 10 m high pressure hose	0137 1000	

The light and handy burners facilitate a working without exhausting. Due to the low weight of the burner head, a top-heaviness combined with a constant pressure on the worker's forearm is inexistent.

Do you know that while using the standard propane burners with a noise emission higher than 85 dB(A) you have to wear ear protectors?

Only 3 dB(A) more cause a doubling of the danger for your hearing. Test measurements of the BBG, Böblingen, Fachausschuss Bau, confirmed the given values.
