

Mastic asphalt recycling boiler 250 l mobile design

Special equipment for melting and transporting mastic asphalt.

- Boiler capacity 250 l
- Low deadweight, powerful direct horizontal agitator drive, short melting times and durable inner pan
- Propane gas burner heating
(Flame-shield prevents direct flame on the boiler shell by propane gas firing).
- Device set up on truck or trailer chassis having adequate bearing capacity

Technical details mobile design:

Description	RGTK 250
Item no.	82003 0000
Trailer chassis	Single axle
Approx. length	3.100 mm
Approx. width	1.650 mm
Approx. height	1.780 mm
Approx. deadweight	1.070 kg
App: Total weight	1.800 kg

Subject to technical changes.
