Hot Air Blower HG 2300 GEM

Art.-Nr. 5285 0000

With infinitely variable air quantity and temperature regulation. Efficient, electronic controlled professional hot air blower!

- full electronic temperature and air quantity regulation, adjustable infinitely variable
- heating element is easy to change
- durable, brushless high-performance blower motor
- can optimal be used in machines, too
- can be delivered complete inclusive accessory in a functional burner box

Technical data:

Voltage:	230 V / 50 Hz (special voltages on request)
Air quantity / Air quantity regulation:	max. 600 l/min / infinitely variable regulation
Blower pipe:	Suitable for screwable „Professional“ – nozzles (Ø 30mm)
Capacity:	2.300 W
Temperature:	50 °C – 600 °C
Temperature regulation:	Infinitely variable
Lifetime motor:	approx. 5.000 hours
Lifetime heating system:	approx. 800 hours
Power cable:	H07 RN-F 2 x 1 length 2,5 m
Weight:	850 g

Accessories:
